

The Best Jewellery Model Making Systems are Coming to Toronto

Tuesday, February 7, 2012

You are invited to attend a demonstration of a Solidscape high-precision 3D wax printer, Roland jewellery milling system, and Rhino Gold, the premiere CAD software for jewellery designers and goldsmiths.

To allow us to provide a complete demonstration for you, please make your reservation with John Schindler at john@schindler.ca (1-888-688-6835)

Solidscape®
High Precision 3D Printers

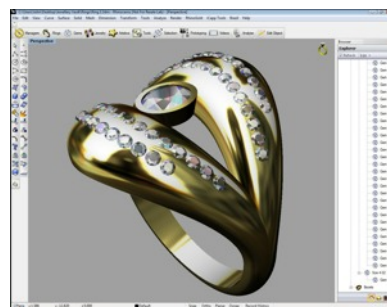

Over the years, Solidscape high-precision 3D wax printers have set the bar for the highest standard for surface finish, accuracy and material castability. Table-top systems are priced for custom jewelers or medium manufacturers. www.solid-scape.com
